### WHAT

Dermaividuals skincare range is free of emulsifiers and formulated for your individual canvas.

### HOW

I was lucky to grab time with Sallyann Cannone from Sallyann Paramedical Aesthetician in Double

Bay, Sydney. After a brief look over my skin, she blended and packaged a range of tailored lotions for me.

### THE RESULT

Within two weeks, red regions around my T-zone began to fade due to natural ingredients like grape seed extract. Despite an

early breakout while my skin adjusted, my pores had shrunk.

### WHERE

Visit [dermaividuals.com.au](http://dermaividuals.com.au) to find your closest clinic.

### HOW MUCH

It depends on your needs, and you'll have to factor in your initial consult.
